

LATEST MESSAGES

Accessing the Resources.

There is a post for every week. The six most recent posts are displayed on the home page. To access any Sunday, click on it and two videos will appear.

1. To view a sermon or all age message, click on the triangular start button
2. To download a message, click on the "Download" button, select the file size (small for a small screen and larger for a larger screen). Larger files take longer to download and require more memory.
3. The downloaded file can be stored and/or imported into presentation software such as PowerPoint.
4. To view any video on full screen, click on the "four arrows" at the bottom right to expand to full screen. To return to small size, click on the "four arrows" again.
5. You can download a printable **information sheet** containing discussion starters, presenter details, lectionary information and other useful information.
6. All posts will be available indefinitely if you wish to return to a message later. Currently, these posts only go back to March 2021.

To explore the messages in more detail, sort by the tag links to find specific presenters (bottom of page), season or year (top of page). To view all messages for a specific liturgical year, click on the required year. (Only Year B is available at present)

Earlier messages back to September 2020 can be found on our Archives at the bottom of the Home Page.
